

Said I Would

One Two

I am a weary soldier,
soldier for you.
Gone are the days uncertain,
they have come loose. Waiting to fall asleep;
nights can be so cruel.
Holding a photograph
but that wont bring me you. Only wanna give you what I said I would (said I would)
Only wanna give you my heart.
Picking up the pieces like I said I would (said I would)
Let me get a piece of your heart,
your heart. Worlds are turning over,
turning on you.
Dont let your heart grow colder,
let it move. Tired of playing games,
By the written rules
Help me break through these chains,
we are over due. Only wanna give you what I said I would (said I would)
Only wanna give you my heart.
Picking up the pieces like I said I would (said I would)
Let me get a piece of your heart,
your heart. (repeat) Your heart.
