

True Love

Friendly Fires

...street lights got me hold
I walk the pavements back to .alone
I keep you wanting your lights
Should living like a moment pass on by
What's the lovers .and my envy .
I'd give it all just to feel what it's like.

Chorus:

All I want is to feel true love
All I want is to feel true love
All I want is to feel true love
All I want is to feel true love
I've checked the figures it feels like hope is lost
A photographic film I cut the car
I keep chasing a lie
watching live you like a moment pass me by
if I had love on my side I'd give it all
just to have what they have
There's never enough .

Chorus:

All I want is to feel true love
All I want is to feel true love
All I want is to feel true love
All I want is to feel true love
Watch your fall through my fingers
Watch you fall into .
Watch your fall through my fingers
Watch you fall into .

[Chorus:]
