

World Filled with Love

Craig David

Saw some pictures in the paper,
of a girl I'd met the day before.
I couldn't believe that hours later,
I had reporters knockin at my door,
But I used to dream about,
the life I'm living now and,
I didn't think I'd miss those things from the past,
and I'm not afraid of leaving,
or letting go of what I had,
cause I realize that now there's no turning back
Cause I'm a young heart living in a world filled
with love,
so when teardrops fall from me like rain from above,
I can brush my troubles away,
know that deep down inside,
I got sunshine in my life
I used to think I could do better,
my girlfriends always used to get me wrong
Sent distant messages, love letters
but those kind of feelings never lasted long
Cause now the only love I find's within a castle made of sand
and when the tide goes out it's swept away
Though I got my peace of mind, and time is firmly on my side,
and through the bad times I can safely say...That I'm a young heart living in a world filled with
love,
so when teardrops fall from me like rain from above,
I can brush my troubles away,
know that deep down inside,
I got sunshine in my life. Ah... now that love's here to stay
I've found a better day to brush my troubles away
Cause I'm a young heart living in a world filled with love,
so when teardrops fall from me like rain from above,
I can brush my troubles away,
know that deep down inside,
I got sunshine in my life.
I'm a young heart living in a world filled with love,
so when teardrops fall from me like rain from above,
I can brush my troubles away,
know that deep down inside,
I got sunshine in my life.
