

# I'll Never Go Away (feat. Gabe Dixon)

[Erin McCarley](#)

I cannot begin to even understand  
Those tears in your eyes took you by surprise  
Nothing I could say can make it go away  
I know it's hard to sleep, you can lay your head on me It's okay to cry  
How can I let you know  
I got love, I got you, love  
I'll never go away, I'll never go away  
I got love, I got you, love  
I'll never go away, I'll never go away  
I know you never thought you could hurt this much  
Losing what you love, you lost yourself, you're numb  
Even though it's dark, there's a light somewhere inside you  
Let me hold your hands, I'll help you find your feet again. It's okay to cry  
Want me to let you know  
I got love, I got you, love  
I'll never go away, I'll never go away  
I got love, I got you, love  
I'll never go away, I'll never go away  
I got love, I got you, love  
I'll never go away, I'll never go away  
I got love, I got you, love  
I'll never go away, I'll never go away  
Even when it's dark, we're gonna shine, we're gonna shine  
Even when it's dark, we're gonna shine, we're gonna shine  
Even when it's dark, we're gonna shine, we're gonna shine  
Even when it's dark, I'll never go away, never go away
