

Child of Night

The Black Dahlia Murder

Torrents of hellish winds
Tear through rebellious soul
My feet become as hooves
I bathe in ageless darkness Abominably
Dark spells shall manifest
Through stench emitting rifts
In this maelstrom of the flesh
A fate too lurid to resist
Ea Ea
So black is this fire
So foul this desire
In me
Extinction level anger
Welling inside the ribs
Greet his royal iron fist
To this sick world from the next
A wyvern summoning
Through boundless chasms of death
Something wicked is abreast Ea Ea
So sweet is the wine
On the blood of divines we feast
Eternally Incubus
Succubus
Succumb to us
Incubi
Succubi
Undivine
Under the burning sign
O won't you burn in hell with me Endless
Orgies writhe in sweat
Ceaseless
Reign of selfishness
Pieces
Of our lord are mirrored in me
Jesus
He this world did never need Child of night
I call to thee
Incubus
Succubus
Succumb to us
Incubi
Succubi

Undivine
Under the burning sign
