

Our Time

Russ

Yeah, maybe this just not our time
You got your life I got mine
You too far away, let's be real (Let's be real)
Get too attached let's be real (Let's be real)
Baby on the other hand
We be kicking it
Can't find anything wrong with you
You stay up with me
Help me with a song or two
Momma love me and i think my momma loves you too (Oooooo)
I love you dearly, I love it when you near me
I love how you don't care how I make weekly what they make yearly
Plus, I love your accent
I love your compassion
Lets just sing sweetly
And on the flipside
Barely sent an invite
But, thats all it took
You on a plane
I'm on your insides
Talking to my homies
I can't be the only
This can't be her first time
Maybe this just not our time
You got your life I got mine
You too far away, let's be real (Let's be real)
Get too attached let's be real (Let's be real)
Baby on the other hand
We be kicking it
Can't find nothing wrong with you
You stay up with me
Help me with a song or two
Momma love me and i think my momma loves you too (Oooooo)I can't tell, do I miss you
enough to drink?
Did I drink enough to miss you?
So in love I'm scared to blink
God forbid I miss a moment with you we share in the bed
Takin' leaps of faith of love together we sharing the ledge
And around that time my trust issues be kicking in
I swear Latina and trouble is just a synonym
This my chemistry its so hard to overlook how we met
Miami hotel girl, it's hard to forgetMaybe this just not our time

You got your life I got mine
You too far away, let's be real (Let's be real)
Get too attached let's be real (Let's be real)
Baby on the other hand
We be kicking it
Can't find anything wrong with you
You stay up with me
Help me with a song or two
Momma love me and i think my momma loves you too (Oooooo)
