

You Gave Me a Promise

Fireflight

The waves are crashing down on me
But I know this cannot be the end be the end
Right now I feel like copping out
Will You hold me up If I just say that I will stay? I will hold on to this hope that I have
You gave me a promise, You gave me a promise
I? ll push through this moment, I? ll never give up
You gave me a promise, You gave me a promise I? m so tired that I can? t stand
But I know that time will heal this heart, heal this heart
With every door that? s slamming shut
A new one? s there to lead me where You are, where You are
I will hold on to this hope that I have
You gave me a promise, You gave me a promise
I? ll push through this moment, I? ll never give up
You gave me a promise, You gave me a promise You, You call out to me
You? re just out of reach but I? m closing in
I? m still going, still believing in Your word I will hold on to this hope that I have
You gave me a promise, You gave me a promise
I? ll push through this moment, I? ll never give up
You gave me a promise, You gave me a promise
I will hold on to this hope that I have
You gave me a promise, You gave me a promise
I? ll push through this moment, I? ll never give up
You gave me a promise, You gave me a promise
