

# Skydive

## Boogie

[Intro]

Life, life, life, life, life

Sky, uh

They told me don't jump with no plan, mhm

Well I'm saying you better be sure, uh

Just be sure, uh

Think I've stumbled on uncharted land, mhm

I guess that means war, means war

Life

[Verse 1]

I heard your commitment can turn to a sickness that I never seen, mmh

And for sure ain't no cure, shit, I hope ain't no cure, uh

If I told you my symptoms was trippin', don't fault my conviction

From tension I felt on my core

If I told you these feelings I'm missing became my addiction

At this point I hope that you pure[Chorus]

Oh we should sky, sky, sky, skydive, uh

I just hope that you sure, uh

And I pray we secured, oh yeah

High, high, high, high tides, uh

You can never be sure, uh

I just hope we mean more

[Verse 2]

We always in different spaces

You take me out of my zone, I

Love how this passage ain't safe, why

I swear I'm sure of the unknown, of the unknown

May this storm pass us never

And we redefine gravity and let this fall last forever

Crawl back whenever

All bad, this weather got us rowing

Where we land when we jump to conclusions

Mama called me stupid, she keep telling me

"Boy, stop, don't drop," yeah yeah

"You're playin' with fire, child"

"Boy, stop, don't drop," yeah yeah

"Just wait til' it die"

But you don't know shit 'bout this flame

It's lit in the midst of a rain

Of bein' addicted to pain

That's why I ain't ask to be saved, ayy[Chorus]

Oh we should sky, sky, sky, skydive, uh

I just hope that you sure, uh  
And I pray we secured, oh yeah  
High, high, high, high tides, uh  
You can never be sure, uh  
I just hope we mean more
