

Wooden Heart

The Duke Spirit

no one wastes time quite like I do
I can waste time like nobody else
you can go running back to your friends
you can go running back to your friends well, that is how I feel
yeah, that is how I feel I would understand your heart
if I could feel it
I would understand your heart
if I could feel, oh all I have is all that I am feeling
all I know is all that I feel
and then I use it every day
but I abuse it every way
yeah, that is how I feel
yeah, that is how I feel I would understand your heart
if I could feel it
I would understand your heart
if I could feel, oh the skies are more certain
than you will ever be
the rain clouds are angry
at you and at me the skies are more certain
than you will ever be
the rain clouds are angry
at you and at me forgive me, baby
I am not all that you see
I would understand your heart
if I could feel it
I would understand your heart
if I could feel, oh I would understand your heart
if I could feel, oh
I would understand your heart
if I could feel, oh I would understand your heart
if I could feel it I will understand your heart
