

Little Boy

Satellites

Squeeze in the boat now
Dad says we must go
A family adventure
I wonder where to
I left all my old toys
All my old clothes
Mum says they're better
Where we're going to
I'm gonna make
So many friends
Play new playgrounds
Play new games
And Mum and Dad
Will smile again
You were welcome
In my home
Had I only known
I'd give you toys
And bedtime stories
Until your bright eyes close Little boy
Little boy
Little boy
Little boy
Little boy
Let down by a grown up world
People are shouting
Dad's looking scared
I can feel water
I can't see my friends
I don't want to play
This anymore
I am scared
I am cold
Mum and Dad
I want to go home You were welcome
In my home
Had I only known
I'd give you toys
And bedtime stories
Until your bright eyes close Little boy
Little boy
Little boy

Little boy
Little boy
Let down by a grown up world
