

Body Parts (feat. Mila J)

Jodeci

Your body parts, your body parts
I wanna be alone with you, girl
You know your body, body
Grippin' on that, baby like you grippin' that Bacardi I wanna be alone with you, girl
Diggin' on your body parts, body parts
You know your body parts, body parts
You know your body parts, body parts I see you standin' over there in the corner
Lookin' like you wanna get it, girl
Grippin' that drink so tight
Tell me if I'm so right
Cause you're lookin' dynamite
And I wanna be at home with you tonight
Maybe [?]
Making you my wife
So hear me, let me have a drink with you
Let me get you in the mood
Get your attitude
Let's get all in the nude
Now let me grind you to the beat, baby
I'll take you to the city
I'll take you to the moon
You want this
I can tell from the way that you're lickin' your lips
You want it, yeah, yeah
You want it, yeah, yeah, yeah, yeah
You like this
Lost in the [?] and I'm movin' my hips
They're rollin', yeah, yeah
Slow motion, baby, baby
Ain't goin' easy, you gotta work
But baby believe me, you gon' love the perks If you want my body, body
And you wanna get naughty, naughty
Then you gotta come with it
Play by the rules, but come get it
If you wanna come feel it, feel it
Then you gotta be the realest, realest
Diggin' on my body parts
I wanna be alone with you, girl
Diggin' on your body parts, body parts
You know your body parts, body parts
You know your body parts, body parts Hey girl, tell me can I get with you
Do the things lovers do

Take you on a weekend cruise
Buy you a new purse and shoes
I'll make you feel so brand new
Please let me get with you
Want you to be my boo
So hear me, I would give anything
Including bank, share you a drank
Sound so good, girl what you think? Baby I want you to
I'm waiting, I'm anxious
I'm starting to get impatient
Your body's my station
Let's play Operation
If I go out of bounds
I don't wanna hear complainin'
Do you hear me? Can you hear me?
Focus boy, want you to feel me If you want my body, body
And you wanna get naughty, naughty
Then you gotta come with it
Play by the rules, but come get it
If you wanna come feel it, feel it
Then you gotta be the realest, realest
Diggin' on my body parts I wanna be alone with you, girl
Diggin' on your body parts, body parts
You know your body parts, body parts
You know your body parts, body parts
