

# Amerikaz Nightmare

## Mobb Deep

Yea, Amerikaz motherfuckin' nightmare bitch  
They wanna know, where the hood at, nigga we  
right here

Live in the flesh, with the Tec's and never scared  
Them guns we holdin, claustrophobic, we'll let 'em air  
Dump dump, reloaded Amerikaz nightmare  
They wanna know, where the hood at, nigga we  
right here

Live in the flesh with the Tec's and never scared  
Them guns we holdin', claustrophobic, we'll let 'em air  
Dump dump, reloaded the Amerikaz nightmare  
Dogs, I think smarter, reach harder  
Slugs travel much farther

Nigga stompin' a Timberland wearing, face carver  
With the box cutter, top gutter  
I'll hover over you lames, run for cover, into your brain yea  
You did your thang but, not very good  
And by the, looks of things, you can't come back to the hood  
This is not a good look for you my nigga  
What's really poppin', inquiren' minds wanna know

How you rockin' them, new guns, we cope those  
In bulk, like we bought 'em in Cosco's  
Don't get yaself murked, wet shirt  
Said it first, hurry this that red alert  
You ain't gotta get bucked to know that this led'll hurt  
The sight of my hammer, gotcha heart pumping  
Nerves twitching, eyes jumping, heads will roll  
When the pound starts kicking  
You be missing

Mom's will be wearing that yellow ribbon  
While I'm somewhere in the Caimen islands, chillin, nigga  
They wanna know, where the hood at, nigga we right here  
Live in the flesh, with the Tec's and never scared  
Them guns we holdin, claustrophobic, we'll let 'em air  
Dump dump, reloaded Amerikaz nightmare  
They wanna know, where the hood at, nigga we  
right here

Live in the flesh with the Tec's and never scared  
Them guns we holdin', claustrophobic, we'll let 'em air  
Dump dump, reloaded the Amerikaz nightmare  
Yo you know we keep them big thangs  
That make dead people when we hit brains  
It's a wrap for the sequel get yo whip sprayed  
Tho I rather hit you walkin', get yo shit shaved  
Plus showered up, talkin' then we split, ey  
Won't catch me gun smokin', have the cops think  
It was drugs that provoke it while we rollin', ey  
Baby girl, I see you, can I get a taste of that  
thang

Heard its lethal in a good way  
Just so you know I ain't the one that get yo clit ate  
But hope you got a strong back, I'll make yo shit break

You'll be walking like a penguin for a few days  
Yo bitch, you know we got big cash  
Money fallin' out our pockets, give you whiplash  
When we drive past your projects, ain't nobody can stop us  
Infamous they can't stop us, they want our spot  
Yo fall back nigga we got this  
They wanna know, where the hood at, nigga we right here  
Live in the flesh, with the Tec's and never scared  
Them guns we holdin, claustrophobic, we'll let 'em air  
Dump dump, reloaded Amerikaz nightmare  
They wanna know, where the hood at, nigga we  
right here  
Live in the flesh with the Tec's and never scared  
Them guns we holdin', claustrophobic, we'll let 'em air  
Dump dump, reloaded the Amerikaz nightmare  
I got love for my niggaz, love for my niggaz  
Love for my niggaz, got love for my niggaz  
I bust slugs for my niggaz, slugs for my niggaz  
Slugs for my niggaz, bust slugs for my niggaz  
Yo slugs touchin', medics will rush 'em  
Jake dusting for prints, make shift, morgue made for you pricks  
You know what stay on my hip, you know the hood that I rep  
You know we dumpin' them clips, you in the valley of death  
Get comfortable nigga, you runnin'  
out of breath  
Ya blood is spilling through the sealing of the necks  
Floor or have you flood the cement  
Outside somewhere on the streets, no longer in the flesh  
They wanna know, where the hood at,  
nigga we right here  
Live in the flesh, with the Tec's and never scared  
Them guns we holdin, claustrophobic, we'll let 'em air  
Dump dump, reloaded Amerikaz nightmare  
They wanna know, where the hood at, nigga we  
right here  
Live in the flesh with the Tec's and never scared  
Them guns we holdin', claustrophobic, we'll let 'em air  
Dump dump, reloaded the Amerikaz nightmare
