Sometimes I hold my breath for the longest time

Close my eyes and watch this free fall flight

Scared of coming down from these dizzy heights

I need a snapshot before the last light fades

'Cos you're looking at me in that way again

Want to capture this in case this moment ends Don't let the feeling go, now it's really here

'Cos only heaven knows what's happening

I do believe we can make this world stand still

If we don't change a thing Last night I had that same old dream again

Walking on a tightrope without a safety net

But I had my wings because you were there Don't let the feeling go, now it's really here

'Cos only heaven knows what's happening

I do believe we can make this world stand still

If we don't change a thing

Don't let the feeling go, now it's really here

'Cos only heaven knows what's happening

I do believe we can make this world stand still

If we don't change a thing We don't need to change a thing Don't change a thing Don't change a thing
