

Block

Machine Head

Block. Block. Block.
Hate breeds hate my eyes they have seen
The decimation of all that is pure, pure
A system that feeds their machine with
The blood, sweat and money of the poor, poor
Corruption gets rich, honesty just exists
'Cause nobody cares anymore, anymore Fuck it all
Fuck it all Block. Block. Block.
White attack black, black attack back
The fuckin' media keeps us all blind, blind
Children on crack, junkies on smack
You wanna close your eyes to hide, hide
Pollution so dense, sickening existence
New world order, new world decline, decline Fuck it all
Fuck it all The more intense the sense of ignorance
The more intense then is the pain Block. Block. Block. Hate breeds hate my eyes they have seen
The decimation of all that is pure, pure
A system that feeds their machine with
The blood, sweat and money of the poor, poor
Believe in something if it stops your suffering
'Cause all we have is nothing
Nothing
Fuck it all. The more intense the sense of ignorance
The more intense is the pain Fuck it all.
