

# Stay (feat. INNA) [Dannic & Loax Remix]

## Dannic

[Verse 1]

Wait

I heard you were leaving, won't you stay  
Cause I gotta feeling, you can change  
So you don't need anybody, no, anybody[Pre-Chorus]  
Cause you never thought that I'll be in there for the long, run  
And you wanna go, you know I'll let you go on  
Whenever some people telling me that you and I are fun  
Cause they never seen your side the way that I don't[Chorus]

I want you to stay  
Stay-ay, stay-ay-ay, mmm  
I want you to stay  
Stay-ay, stay-ay-ay

[Verse 2]

It may be your face  
So drop me in your gab to the bay  
Now I'll prove you're wrong, I'm wide awake  
Cause I know you need somebody, anybody[Pre-Chorus]  
Cause you never thought that I'll be in there for the long, run  
And you wanna go, you know I'll let you go on  
Whenever some people telling me that you and I are fun  
Cause they never seen your side the way that I don't[Chorus]

I want you to stay  
Stay-ay, stay-ay-ay, mmm  
I want you to stay  
Stay-ay, stay-ay-ay

[Verse 3]

And maybe one day  
The doubts in your mind will slowly fade  
And you and me be in better place  
Cause I know we'll be together, yeah, we are forever[Pre-Chorus]  
Cause you never thought that I'll be in there for the long, run  
And you wanna go, you know I'll let you go on  
Whenever some people telling me that you and I are fun  
Cause they never seen your side the way that I don't[Chorus]

I want you to stay  
Stay-ay, stay-ay-ay, mmm  
I want you to stay  
Stay-ay, stay-ay-ay
