

Difference

Bobby Tinsley

If that is what you're making then why are children naked
Dying in the streets every day
Homeless this man on a corner begging for a quarter saying sir can you spare some change, oh I
wish that I could take all the pain in the world and make it go away, but I can't
What I can do is try to inspire you
To live loud, scream out, don't stay in a box, break out
Every boy and every girl gotta make a difference in this world,
Gotta make a difference in this world, gotta make a difference in this world
Gotta make, gotta make, gotta make, gotta make, gotta make a difference in this world
Don't go acting like a fool, shoot out in the schools, violence escalating everyday
Has the world gone mad, looking at we're at?
I'm afraid to have a baby cause it's not safe I wish that I could take all the hate in the world and
make it go away, but I can't
What I can do is try to inspire you
To live loud, scream out, don't stay in a box, break out
Every boy and every girl gotta make a difference in this world,
Gotta make a difference in this world, gotta make a difference in this world
Gotta make, gotta make, gotta make, gotta make, gotta make a difference in this world I still
believe that with love we can conquer
All men are equal and God is our Father
Ain't nobody gotta hate tonight, nobody got a dynamite, oh
Now we go join hands tonight six billion strong we're unstoppable Live loud, scream out, don't
stay in a box, break out
Every boy and every girl gotta make a difference in this world,
Gotta make a difference in this world, gotta make a difference in this world
Gotta make, gotta make, gotta make, gotta make, gotta make a difference in this world
I still believe that with love we can conquer
All men are equal and God is our Father
Gotta make a difference in this world, gotta make a difference in this world
Gotta make, gotta make, gotta make, gotta make, gotta make a difference in this world.
