

Let It Burn

Volbeat

Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn
The fire may not open
But the Devil will return
Insanity or glory
In a mind that never learns
A moment of something
Where the dark can reverse
Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn
The empty eyes are falling down
The path of no return
In blindness he wanders
If his mind will never learn
A moment of something
Where the dark can reverse
Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn
Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn
