

# Mystery Song (feat. BEGINNERS)

## Bassnectar & Amp Live

Ride up in a mystery voices in my head  
Asking for an answer,  
but they're questioning' me instead  
Google all that ready sound, danger up ahead  
One more engine get it so I'll follow you instead If you want it  
You can taste it  
If you need it  
You got to trace it  
If you want it  
You can taste it  
If you need it  
You got to trace it  
If you want it  
You can taste it  
If you need it  
You got to trace it  
La la la la la  
La la la la la  
La la la la la

Ride up in a mystery, nowhere to attend  
I cannot begin but she's dying at the end  
Planning by a century, dodging any thread  
Pull in one direction but it's too late to forget If you want it  
You can taste it  
If you need it  
Got to trace it  
If you want it  
You can taste it  
If you need it  
You got to trace it  
If you want it  
You can taste it  
If you need it  
You got to trace it  
La la la la la  
La la la la la  
La la la la la
