

# Take My Hand

## Lastlings

Hanging from an open door  
With a glimpse of words unsaid  
The white light starts to crawl  
Into a higher place  
And you wish you could be the one  
To find your own embrace  
But what you had is far from gone  
What you had is far from gone  
Take my hand tonight  
Before the night starts to unwind  
The world will wake us up inside  
The world will make us come alive  
Take my hand tonight  
Before the night starts to unwind  
Take my hand tonight (Tonight)  
'Cause I'm not ready to let you go (Go)  
You've got me losing control  
No, I'm not ready to let you go (Go)  
Is this what you want, want, want?  
White walls tumble down  
Falling at the beat of your own drum  
But this is what you waited for  
This is what you waited for  
I'm reaching out  
Please turn around  
I'm breathing out  
Please make a sound  
Take my hand tonight  
Before the night starts to unwind  
Take my hand tonight (Tonight)  
'Cause I'm not ready to let you go (Go)  
You've got me losing control  
No, I'm not ready to let you go (Go)  
Is this what you want, want, want?  
You've got me losing control  
You've got me losing control  
Is this what you want, want, want?
