

# Initiate

## Haken

Love and pain  
Engage your senses  
And let them carve the way Give me  
(Give me)  
Focus  
(Focus)  
Sharpen  
(Eye)  
My view  
Initiate  
Live here and now  
I forever or never I observe a world jarring in turmoil  
A million people waging war at the hands of a god  
And I can hear them cry  
Cold fires blazing before me  
An affliction fast consuming  
Fascinating me (Drifting)  
You'll be  
(Deeper)  
The live and the death of me  
(Into)  
I  
(The unknown)  
Initiate  
We'll make this dream  
Last forever or never  
Tears will run dry  
From my everwandering eye  
But I'm prepared to stay  
'till my dying day! I've seen things you won't believe  
In tomorrow's memories I'll do things you can't conceive  
(Open the flooded gates)  
(All the colours haven't changed)  
(Let them be about initiate)  
(All my senses are engaging)  
There'll be no strings on me  
(Open the flooded gates)  
(All the coming of the plane)  
(Let them be about initiate)  
(All my senses are engaging) (This could) Tell me  
(Change me) How does it feel to breathe  
(Fallen) I

(Follow) Initiate I'm drifting (Drifting)  
Deeper (Deeper)  
Into (Into)  
The unknown
