

# Follow (DiskJokke Remix)

## Crystal Fighters

Follow, follow Follow, follow  
You're the one I follow Follow to the middle  
Middle of the shadows Far away from all the sorrows  
You're the one I follow Follow all the way oh  
Way into the darkness Where the sun is shining yellow  
You're the one I follow  
Follow to the middle  
Middle of the shadows  
Far away from all the sorrows  
You're the one I follow  
Follow all the way oh  
Way into the darkness Where the sun is shining yellow  
"How we had to know the way"  
In the world "tigh"  
Hiding in the middle Away from all the sorrows.  
Swallow it all down low, oh oh For the freedom of mind  
Freed us out of the darkness  
Where the sky is bringing yellow.  
If anyone can offer me some honesty, yah. Honestly, honestly  
Honesty, honesty.  
If any disaster needs a remedy, yah.  
Remedy, remedy  
Remedy, remedy  
If I go to you, you come to me, yah.  
Come with me, come with me  
Come with me, come with me And that's just the way its gonna have to be, yah.  
Follow me, follow me  
Follow me, follow me  
Follow, my love, taking everything  
till' the love takes you everyone  
and everyone will sing  
Peace has come  
Peace has come to ever seen  
And all as one want everything  
Follow, my love, taking everything  
till' the love takes you everyone  
And everyone will sing  
Peace has come  
Peace has come to ever seen  
And all as one want everything  
Definite, definitely  
In you I lost my soul

Following nothing endlessly, again  
Your soul to sleep  
Your soul to sleep  
Your soul to sleep  
That sounds so sad.  
The heart to beat  
The heart to beat  
The heart to beat  
That sounds so sad.  
Follow, my love, taking everything  
till' the love takes you everyone  
and everyone will sing  
Peace has come  
Peace has come to ever seen  
And all as one want everything  
Follow, my love, taking everything  
till' the love takes you everyone  
and everyone will sing  
Peace has come  
Peace has come to ever seen  
And all as one want everything  
Follow, my love, taking everything  
till' the love takes you everyone  
and everyone will sing  
Peace has come  
Peace has come to ever seen  
And all as one want everything
