

# Talk a Good Game (feat. Kevin Cossom)

## Kelly Rowland

You talk a good game  
I really want to believe you  
But I got questions in my head like  
(is it true, what to do)  
I don't want to see myself  
(play the fool, baby, ooh)  
Uh uh, no way  
Baby keep it real with me  
Cuz I-II don't think I can take another broken promise  
Why do things the hard way when you could just be honest  
And Imma do what I'm supposed to do if you tell me you got us  
Why do things the hard way  
Cuz if you give me your love and I give you mines back  
If you get to acting up I cut you off like that  
(I) don't think I can take another broken promise  
Why do things the hard way  
If love is free, and tough is cheap  
(don't make me pay for all your mistakes, boy)  
Finally go, just be free  
Let you get to know me  
(don't tell the same stories)I really want to believe youDon't think I can take another broken  
promise  
Why do things the hard way when you could just be honest  
And Imma do what I'm supposed to do if you tell me you got us  
Why do things the hard way  
Cuz if you give me your love and I give you mines back  
If you get to acting up I cut you off like that  
(I) don't think I can take another broken promise  
Why do things the hard way  
Promises and promises  
You say they all counterfeit  
If we starting off tellin lies this love ain't ever amount to shit  
You really think me, I'm the one or you just like the sound of it  
If the motive's all wrong heartaches what your bound to get  
Give me one shot  
Better ball quick  
Imma kill it, girl, full clip  
You wearing all white, I'm in all black  
We standing by the ball pit  
You say I do, I say I do  
I'm tired of the bullshitI don't think I can take another broken promise  
Why do things the hard way when you could just be honest

And Imma do what I'm supposed to do if you tell me you got us  
Why do things the hard way  
Cuz if you give me your love and I give you mines back  
If you get to acting up I cut you off like that  
(I) don't think I can take another broken promise  
Why do things the hard way
