

God Knows

112

Baby tell me why
why do you question
all this love that I have for you
if you look into my eyes
and make an exception
I will show you love like no one before
put your trust in me
allow me to be that
baby give me your hand to hold
cause the feelings that I have
are so complicated that words cannot explain there is only one who knows
Only God knows
how much I love you
God sees my heart
and that he cares about you
God knows
that i'm thinking of you
and i'm longing for you
how wish that you knew what God knows Baby tell me what
what is the reason
one good reason you're so insecure
cause after all that I have done
I think you should know by now
girl im down for you and the love I have is pure
I wanna help you understand
just how I feel for you
you're the one that I can't let go
because the feeling that I have
are so complicated that words cannot explain there is only one who knows
Only God knows
how much I love you
God sees my heart
and that he cares about you
God knows
that i'm thinking of you
and i'm longing for you
how wish that you knew what God knows
how much I love you
God sees my heart(Speak to my heart)
and that he cares about you
God knows
that i'm thinking of you

and i'm longing for you
how wish that you knew what God knows and all of my lonely days
only God knows i'm lonely
and all my sleepless night (only God sees me crying)
and everytime I think of you
only God can read my mind (he reads my mind)
God knows I tried
if you understand
heaven knows I miss you girl
only God can see how much
cause everytime you go away (I long for your touch)
now when I say I love you girl
only God sees my heart (he sees my heart)
he sees my heart only God knows
how much I love you
God sees my heart (girl you know that he sees my heart)
and that he cares about you, (and he cares)
God knows (yes he does)
that i'm thinking of you (and im thinking of you)
and i'm longing for you
how wish that you knew what god knows (yes he does)
how much I love you
God sees my heart
and that he cares about you
God knows
that i'm thinking of you
and i'm longing for you
how wish that you knew what God knows la la la da da la la la
i'm thinking of you
la la la da da la la la
how I wish that you knew
