

Made of Love (Bobina Megadrive Vox)

Ferry Corsten

Just try to break me
Take everything away
Just try to shake me
Out of my place Nothing's created
And nothing is destroyed Just try to tame me
You'll never find a way
There's no containing
A moment to brake
Nothing's created
And nothing is destroyed Take it away,
Never give this up
(Throw it away)
We're all made of love
(There isn't a way)
We're all made of love Just try to save me
There's nothing you can change
There's no explaining
And no one to blame Nothing's created
And nothing can destroy Never give this up
We're all made of love
We're all made of love
Take it away
Never give this up
(Throw it away)
We're all made of love
(There isn't a way)
We're all made of love Take it away
Never give this up
(Throw it away)
We're all made of love
(There isn't a way)
We're all made of love Never give this up
We're all made of love
We're all made of love
