

# Big Eyes

[Matt Corby](#)

Blackout the light  
Maybe you're tired fall  
Or stone cold You fumble and fight  
With all the time you spend alone Cause it's only fair  
It's love and war  
And darkness is all you'll ever know  
If I don't love you more  
A keep in your cage  
Withered by aging eyes and skin  
You call this your home  
A colorful dragging dried up drone Cause it's only fair  
It's love and war  
And darkness is all you'll ever know  
Oh darkness is all you'll ever know  
Darkness is all you'll ever know  
If I don't love you more Loveless sorrow kindly borrowed  
The only thing my soul's now hollow  
Loveless sorrow kindly borrowed  
The only thing my soul's now hollow  
Cause it's only fair  
It's love and war (ooh)  
And darkness is all you'll ever know  
If I don't love you more
