

Vinyl

Fly By Midnight

I wish we met in '78
Oh wouldn't it be great to get your number on a napkin
'Cause now I can't appreciate meeting face to face
It's all Internet interaction
Back in the day we would stay up late
Let the boom box play
But now in the night we all swipe right
Oh what a shame
We don't have to lose all the groove babe
Grab your favorite record and we'll move like they used too
Oh, oh, oh
We can rock
We can roll
Don't let pop
Steal the show
Ditch that mp3
Come on dance the vinyl with me
(Come on dance the vinyl with me)
I'll lay down that '78
Pull you closer
I can't wait to feel you moving to a classic
No there's no need for 808s
Let the groove communicate
All of our purple rain attraction
Oh, 'n' back in the day we would stay up late
Let the boom box play
But now in the night we all swipe right
Oh what a shame
We don't have to lose all the groove babe
Grab your favorite record and we'll move like they used too
Oh, oh, oh
We can rock
We can roll
Don't let pop
Steal the show
Ditch that mp3
Come on dance the vinyl with me
(Come on dance the vinyl with me)
We don't have to lose all the groove babe
Grab your favorite record and we'll move like they used too
Oh, oh, oh
Side A, Side B
It don't matter much to me
Ditch that mp3
Come on dance the vinyl with me
(Come on dance the vinyl with me)
Like a needle on a record, baby
Lay down on me
Like a needle on a record
You fit right into me
Like a needle on a record, baby
Lay down on me

Like a needle on a record
You fit right into me (Come on dance to the vinyl with me)
