

Shadow and Soul

Red

This is not for you
You don't belong here
Caught in my soul
Caught inside the shadow Buried, I kept you
Helpless, I'm reaching out Waiting for me
Lost between Shadow and soul, my untold still waits
Find me in the dark, I'll meet you below
Shadow and soul My darkest love
You live in secret
My heart unknown
It calls, it cries to reach you
Hunger, abandon
I hid you right beneath Dying darkly (suffer)
Arise, my only Shadow and soul, my untold still waits
Find me in the dark, I'll meet you below
Shadow and soul Dark and light
Caught between, caught between
Endless night
Underneath, underneath
Hunger, my untold, I'm waiting
Find me inside, the endless night, our endless night My furtive soul
A heart unknown
It's buried alive
The boundary fades between
Shadow and soul
My untold still waits
Find me inside
The endless night
Our endless night
