

# icarus

## EDEN

So this is how I die now  
Hands to the air  
No, they can't stop the sky falling down, down  
Guess I thought that I'd feel good somehow  
All you know is up is high  
And I am feeling like you ain't going down, down  
Disappearing through the silence, yeag  
Screams fade and blur  
Conversated with the smile, though  
Life invisible  
Guess I thought that I'd feel better now somehow  
Any hour now  
Icarus  
No, I can't escape this fall  
Falling in reverse  
Falling in reverse  
So how you gonna scream my name  
And I gave all I got  
I've nothing left to give you  
I'm so burnt out and lost  
Why's it all just feel the same  
And I got all I want  
I had you where I wanted  
I guess I don't know  
How to live with a good thing  
And not break it into nothing  
Self destruction feels so close  
So tell me how you want me here now  
Keep crying on the phone  
Yeah, that's all I seem to hear now  
Keep lying through your teeth  
Lie to me, lie with me now  
(I'm halfway there, but it's like,  
"Shit, I haven't really been doing anything for the last year."  
And I've been saying I've been  
doing a shit ton but like, in terms of...  
I don't know.)  
So tell me how you really feel now  
Ain't been asked that in a while  
Yet you still won't get them hear you out  
Just keep at it, bro,  
these things always seem to fix themselves somehow  
Suck it up, some would kill just to stand where you're standing now  
So how you gonna scream  
my name  
When I gave all I got

I've nothing left to give you  
And I'm so burnt out and lost  
'Cause fuck it, it all feels the same  
And I got all I want  
I thought that I'd feel something  
I guess I'll never know  
How to live with a good thing  
Fuck my life up for nothing, nothing  
'Cause you don't care if I'm still bleeding  
You just scream until you hear my name So this is how I die now  
Hands to the air  
No, they can't stop the sky falling down, down  
Guess I thought that I'd feel good somehow Disappearing through the silence  
Screams fade and blur  
Conversed with the smile, though  
Life invisible  
Guess I thought that I'd feel better now somehow  
Any hour now
