

# Imagine That

R. Kelly

Close your eyes  
Now relax your mind  
Now I want you to picture yourself far far away  
(All your thoughts aside cause we're about to take a ride)  
And I don't want you to have a care in the world right now  
It's just you and me  
In this moment... quiet  
ListenBaby take your mind into a zone  
Imagine that we all alone  
Two ways are off and our friends are gone  
Now picture you and me getting it on  
Take my hand and come with me  
Let's indulge in fantasies  
Cast your cares and worries  
And slowly fall into this ecstasy  
I'm gonna rub your body, so baby just relax  
You've been pouring out your loving, and now it's time to pour it back  
Imagine that  
(Imagine that imagine that imagine that imagine imagine that)  
All night long me stroking your body  
Imagine that  
(Imagine that imagine that imagine that imagine imagine that)  
Whipped cream and strawberries know what I mean  
(Imagine that imagine that imagine that imagine imagine that)  
Candles and oils surrounding the bed  
(Imagine that imagine that imagine that imagine imagine that)  
And me kissing your body from feet to head  
Imagine that  
We don't have to talk  
Lay your body here and watch my fingers walk  
Take a second and imagine the opportunity  
You and me sharing sexual energy  
Now girl just meditate on you being in this chair  
Then close your eyes and act like we not even here  
GirlI'm gonna rub your body, so baby just relax  
You've been pouring out your loving, and now it's time to pour it back  
Imagine  
(Imagine that imagine that imagine that imagine imagine that)  
Me stroking your body  
Imagine that  
(Imagine that imagine that imagine that imagine imagine that)  
Strawberries and whipped cream know what I mean

(Imagine that imagine that imagine that imagine imagine that)  
Candles and oils surrounding the bed  
(Imagine that imagine that imagine that imagine imagine that)  
Me kissing you from feet to head Yeah  
Baby  
Imagine  
(Imagine that imagine that imagine that [Baby] imagine imagine that) That I'm stroking your  
body  
Imagine that  
(Imagine that imagine that imagine that imagine imagine that)  
Strawberries and whipped cream imagine that  
Imagine that  
(Imagine that imagine that imagine that imagine imagine that)  
Ohh baby candles and oils surrounding the bed  
(Imagine that imagine that imagine that imagine imagine that)  
Imagine I'm taking off my clothes baby  
Hey  
Do it baby  
Take off all your clothes baby  
(Imagine that)  
Hey  
Cause you owe me baby  
And I want you baby  
So let it take control  
Hey  
Baby let it take control  
Ohhhh  
Imagine that, I'm kissing you  
From feet to head  
It's you and me in the bed  
Screaming baby  
Say my name say my name say my name say my name say my name  
Ohhhh
