

# A Long Way Home

## Eighteen Visions

Can someone save me  
from this hell i've made?  
can someone save me  
before it's too...

Late nights  
have driven me insane  
from you, i  
feel so far away  
I'm all alone now  
in this hell i've made  
i'm all alone now  
i think it's too...

Late nights have  
driven me insane  
from you, i  
feel so far away  
Late nights have  
driven me insane  
from you, i  
feel so far away  
feel so far away!

Can you tear me away from this, i said  
can you tear me away?  
can you tear me away from this, i said  
can you tear me away?  
can you tear me away from this, i said  
can you tear me away?

Can someone save me  
from this hell i've made?  
can someone save me  
before it's too...  
Late nights have  
driven me insane  
from you, i  
feel so far away  
Late nights have  
driven me insane  
from you, i  
feel so far away  
i feel so far away!
