

This Could Be Love (feat. Delaney Jane)

Borgeous & Shaun Frank

Close your eyes
I don't want to be alone tonight
Come alive
I've been looking for a chance to cross the line
I am not afraid
This could be love
I can't find the way
This could be love
This could be love
This could be love (this could be love)
This could be love
This could be love
This could be love
This could be love
Close your eyes
I don't want to be alone tonight
Come alive
I've been looking for a chance to cross the line
I am not afraid
This could be love
I can't find the way
This could be love
This could be love
This could be love
This could be love (this could be love)
I am not afraid
This could be love
I can't find the way
This could be love
This could be love
This could be love (this could be love)
This could be love (this could be love)
This could be love (this could be love)
This could be love
