

# The Moon Is Full

Albert Collins

I said the moon is full, I feel my love comin' down  
I said the moon is full, I feel my love comin' down  
    You see I met this little girl  
I don't think I'm gonna wanna, wanna, leave this town  
All my friends call me crazy, you just don't know how I feel inside  
    All my friends call me crazy, you just don't know how I feel inside  
    You know I love this little girl  
'Cause she's got the little pretty, pretty brown eyes  
Gonna take that train in the mornin', I think  
    I'm gonna go back home  
Gonna catch that train in the mornin' y'all, I think I'm gonna go back home  
    And I know that my little girl know  
    Oh that I won't be gone, I won't be gone 'till dawn  
    If I miss that train, I think I'm gonna to have to hitch-hike  
If I miss that train in the mornin' y'all, I guess I'm gonna have to hitch-hike  
    And I'll let my little girl know, I'll just be gone, I'll be gone overnight
