

When You Come Down My Way

Eli Young Band

When you come down my way here I hope you stay
Maybe for a while, not just a day, yeah
When you come down my way...I haven't seen you in so long, there's a lot to get caught up on
Pull up a chair, pour a drink that's strong
I haven't seen you in so long...When you come down my way leave behind all those rainy days
You know I love to see your face every chance I get...I hear you're doing fine you went to live
your life and I lived mine
You've got friend if life gets unkind
I hear you're doing fine...When you come down my way leave behind all those rainy days
You know I love to see your face every chance I get...You can always count on me if there's
anything you need
Someone to talk to or just a soul to feed
But, you can always count on me...
When you come down my way leave behind all those rainy days
You know I love to see your face every chance I get...
