

# Innocent

## Fuel

Satan, you know where I lie  
Gently I go, into that good night  
All our lives get complicated  
Search for pleasure's overrated  
Never armed our souls  
For what the future would hold  
We were innocent  
Innocent  
Angels, lend me your might  
Forfeit all my lives to get just one right  
All those colors long since faded  
And all our smiles are confiscated  
Never were we told  
We'd be bought and sold  
We were innocent  
Yeah  
Yeah this prayer is for me tonight  
This far down that line  
And still ain't got it right  
Oh and while confessions not yet stated  
Our next sin is contemplated  
Never did we know  
What the future would hold  
Or that we'd be bought and sold  
No  
We were innocent  
Innocent  
We were innocent  
Ohh
