

Lend Me Some Light

Empire of the Sun

Time has come to cross the lonely folk with the colored globes
My dust made of gold
We're spread across the world
Come on, come on
Time has come to show the lonely folk with the globes
And dust made out of gold
We're spread across with joy
Come on! Lend me some light, 'cause I'm totally worn out
Lend me some light, 'cause I'm totally worn out
Lend me some light, 'cause I'm totally worn out We move against the galaxy of the elephants
Laser, bells and chimes
Like a string of pearls
That goes on and on
Underneath a canopy so green with a flash
Dust made out of gold
Lead us on our way
Beyond
Lend me some light, 'cause I'm totally worn out
Lend me some light, 'cause I'm totally worn out
Lend me some light, 'cause I'm totally worn out
