

Necessary Evil

Unknown Mortal Orchestra

Transform into the animal you need to
Fly from a destiny infested with chemicals
You need a new drug not invented by the C.I.A.
I wanna be your friend but don't have the self-control
We're in love
But I don't get what you see in me Lovin me could be your fatal flaw
Just hangin in here trying to be your
Necessary Evil
Nobody can get a tan in the moonlight
Come on inside tell me is it just a bit too much?
He drooled on a pillow and looked like an angel
She hit a blunt but it would not chill her out at all
We're in love
But she don't get what I see in her Lovin me could be your fatal flaw
Just hangin in here trying to be your
Necessary Evil
Transform into the animal you need to
Fly from a destiny infested with chemicals
You need a new drug not invented by the C.I.A.
I wanna be your friend but don't have the self-control
We're in love
But I don't get what you see in me Lovin me could be your fatal flaw
Just hangin in here trying to be your
Necessary Evil
