

# Let it Be Me

Justin Jesso

I'll lie to you if you want me to  
I'll tell the truth, 'cause sometimes you need it  
I'll have your back when it hurts to ask  
When you get mad and don't know the reason  
For the days when it's hard to wake up  
For the nights you don't fall asleep  
For the times when you feel the greatest  
And the world's sittin' at your feet  
Through the good, and the bad, and the ugly  
And everything in between  
You're gonna need somebody, hmm  
So, let it be me, let it be me  
You're gonna need somebody  
You're gonna need somebody  
Let it be me, let it be me  
You're gonna need somebody  
You're gonna need somebody  
Let it be me (Woah-oh-oh, woah-oh-oh-oh)  
You're gonna need somebody  
You're gonna need somebody  
I'll break your fall, when you need to fall  
I'll take it all, so you won't feel it  
I'll pick you up, take you for a drive  
When you wanna forget, and just feel alive  
For the days when it's hard to wake up  
For the nights you don't fall asleep  
For the times when you feel the greatest  
And the world's sittin' at your feet  
Through the good, and the bad, and the ugly  
And everything in between  
Gonna need somebody, oh  
So, let it be me, let it be me  
You're gonna need somebody  
You're gonna need somebody  
Let it be me, let it be me  
You're gonna need somebody  
You're gonna need somebody  
Let it be me (Woah-oh-oh, woah-oh-oh-oh)  
(You're gonna need somebody) You're gonna need somebody  
(You're gonna need somebody) You're gonna need somebody  
(Woah-oh-oh, woah-oh-oh-oh)  
(You're gonna need somebody) You're gonna need somebody  
(You're gonna need somebody) You're gonna need somebody  
Through the ups, and the downs,  
and the nothings  
When you feel like you're missing that something  
When you're feeling high, or coming down, I'll be around  
I'll take the now, and the past, and the future

You can lose me, but I'll never lose you  
When you're feeling high, or coming down  
Let it be me, let it be me  
You're gonna need somebody  
You're gonna need somebody  
Let it be me, let it be me  
You're gonna need somebody  
You're gonna need somebody  
Let it be me (Woah-oh-oh, woah-oh-oh-oh)  
(You're gonna need somebody) You're gonna need somebody  
(You're gonna need somebody) You're gonna need somebody  
(Woah-oh-oh, woah-oh-oh-oh)  
(You're gonna need somebody) You're gonna need somebody  
(You're gonna need somebody) You're gonna need somebody  
Let it be me
