

I Like U

NIKI

I guess this is a bitter end I didn't see coming
And I'm havin' a little bit of trouble accepting, too
I don't know what to say to you
There's nothing I can do to research your point of view
We both said this was just physical
But one of us lied, catching feelings aside, truth be told, yeah
You asked to see me once again at half past ten
I got nervous, so I got faded, made things complicated I'm sorry for those stupid shit I said
[?] I served you threats
It's probably good you left 'cause I finally admit
I like you
Sorry, I never meant to
But who're we kidding, it wasn't like I had a say
When I look at you I wouldn't have it any other way
I want you
I want you to want me, too
I know that I signed up for this casually
But I fell for your tricks, I'm the casualty Can we just reset, restart and replay
Take me back to when
You was the one wasting love on me everyday, yeah
I like you
'Cause whenever I hear from you
Wishing I could turn back to ahead of time
To when I feel your hands on me
And your lips on mine
I know that that was too much the last time you saw me
And I don't blame you for getting over everything so easy
But I just can't seem to figure you out
You got that mystery
Good god how kiss me
Didn't think you'd be distressed, good Lord
Thought I just wanted you there
Wish your hands in my hair
But I craved more
And you just wanted rock 'n roll, no heart and soul
And I knew that from the beginning
So why don't I feel like I'm winning? Ladies and gentlemen, I'm the joke
The punchline that got too old
It's killing me to see you gone 'cause I never told you I like you
Sorry, I never meant to
But who're we kidding, it wasn't like I had a say
When I look at you I wouldn't have it any other way

I want you
I want you to want me, too
I know that I signed up for this casually
But I fell for your tricks, I'm the casualty
Can we just reset, restart and replay
Take me back to when
You was the one wasting love on me everyday, yeah
I like you
'Cause whenever I hear from you
Wishin' I could turn back to ahead of time
To when I feel your hands on me
And your lips on mine
Something about you makes me difficult
But that makes us even 'cause you're top of the charts
Egotistical, it's so typical
For me to fall for your kind
But on God I wish you were mine
I like you
Sorry, I never meant to
But who're we kidding, it wasn't like I had a say
When I look at you I wouldn't have it any other way
I want you
I want you to want me, too
Would it be a stress if I asked you to try again?
I'll be patient, I swear I'll even count to ten
One, two, three, four, five
Fuck it
Can we just reset, restart and replay
Take me back to when
You was the one wasting love on me everyday, yeah
I like you
'Cause whenever I hear from you
Wishin' I could turn back to ahead of time
To when I like you was just a secret
Crime
Yeah, uh
