

Blinding (Instrumental)

Jakwob

This is the life that you prayed for
But now all the lights are blinding you
These are the moments people live for
But your heart is also what's surrounding you
This is the life that you prayed for
But now all the lights are blinding you
These are the moments people live for
But your heart is also what's surrounding you
I'm tired of empty smiles
And nights alone
I'm sick of these paper stars
Illuminating this holy glow
I'm surrounded by your eyes
I almost wanna flow
This is the life that you prayed for
But now all the lights are blinding you
These are the moments people live for
But your heart is also what's surrounding you
This is the life that you prayed for
But now all the lights are blinding you
These are the moments people live for
But your heart is also what's surrounding you
I'm filled by raising hands until the skies,
But these moments are so rare, are like diamonds in disguise,
Although my mind is here, my heart just wants to fly
Away, away
Away, away
Away, away
Away, away
