

Only You

Michael Sweet

Only you can make lightning
Light up the sky
And only you can make truth of this world
Full of lies Every dark corner and every world
You know them all
You make them fall away
Hey yeah, Hey yeah You can reach out to me
And I'll be there when you're lonely
For you only, only you I can reach out to you
And you'll be there when I'm lonely
Who knows me, only, only you
You're that place I can go to
You're always there
When I wrestled my demons
You always care Every stumble right here you stay
You take my fears and wash them all away
Hey yeah, Hey yeah You can reach out to me
And I'll be there when you're lonely
For you only, only you I can reach out to you
And you'll be there when I'm lonely
Who knows me, only, only you Only you You can reach out to me
And I'll be there when you're lonely
For you only, only you
I can reach out to you
And you'll be there when I'm lonely
Who knows me, only, only you You can reach out to me
And I'll be there when you're lonely
For you only, only you I can reach out to you
And you'll be there when I'm lonely
Who knows me, only, only you Yeah, yeah, yeah
