

# Getting Closer

Justin Jesso

I've been waiting for you  
Tell me that it's over  
I've been waiting for you  
Looking over my shoulder And I won't waste another night losing sleep  
Looking for your headlights, show up back in the drive  
I've been waiting for you  
Trying to stay sober Are you getting closer?  
I just need some closure  
I've been waiting too long for you to come over  
Are you getting closer?  
I just wanna hold you  
Leaving the door open if you wanna close it  
Are you getting closer?  
Tell me that it's over  
Are you getting closer?  
Tell me that it's over Found a book in my room with your pictures and your letters  
Little pieces of you are keeping me together  
And I tried going out at night to forget  
Get lost in the headlights, stumble home every time  
Wondering if you're still mine  
Not just someone to remember Are you getting closer?  
I just need some closure  
I've been waiting too long for you to come over  
Are you getting closer?  
I just wanna hold you  
Leaving the door open if you wanna close it  
Are you getting closer?  
Tell me that it's over  
Are you getting closer?  
Tell me that it's over Are you getting closer?  
I just need some closure  
I've been waiting too long for you to come over  
Are you getting closer?  
I just wanna hold you  
Leaving the door open if you wanna close it
