

Stranger Stranger

Bad Company

(howe/kirke/thomas)There's a crazy moon, a crazy sky, looking down on me
I've been losing track of time
It's been the hardest day, the longest night I've ever spent alone
I can't get you off my mindYou know what I've been missing, do I really have to say

Stranger, stranger - you're not the girl I knew, will you ever be the same
You act like a stranger, stranger - tell me it ain't true
Won't you please explain, why you're so strange
In the morning gloom, this empty room, I can see your face
When I look again, you're gone
Your memory, so close to me, it leaves a trace
Won't you tell me what went wrongNo sign, no words, no warning, we can never be the same,
no
When you walked out that morning, you know you left nothing but the blameI know that you're
a...Chorus:
Stranger, stranger - you're not the girl I knew, will you ever be the same
You act like a stranger, stranger - tell me it ain't true
Won't you please explain, why you're so strange(solo)Oh, you're a...
Chorus repeats 2x:
Stranger, stranger - you're not the girl I knew, will you ever be the same
You act like a stranger, stranger - tell me it ain't true
Won't you please explain, why you're so strange
