

# Listen to Your Heart

TNT

Listen When you're hungry, on the dark side  
And you're ready to make your move  
Don't try to fight it  
And don't wait too long Your life's a mystery  
There's a shadow where the road leads  
You can't control it  
And don't try to hold it down  
So when you hear those voices  
Callin' out to you in the night  
Angels are cryin' out to you  
Listen to your heart this time You're a victim of the madness  
That's turning the world around  
You've got the future locked up inside you  
Hold the wind, take the sun  
The border crossing has just begun  
You're rising higher, born with desire  
Keep it strong, win the race  
But don't look back if you're losing the pace Angels are cryin' out to you  
Listen to your heart this time  
Angels are cryin' out to you  
Listen to your heart this time Angels are cryin' out to you  
Listen to your heart this time Angels are cryin' out to you
