Straight Into Your Arms

Vance Joy

Walk in the front door
Drop my keys
Take my shoes off and go straight
Into your arms
Keep me safe
And I dont feel like myself
I been waiting to go straight
Into your arms
Keep me safe
I been gone since yesterday
And I go straight
Straight into your arms
And it only takes one day
And I run straight
Straight into your arms
Straight into your arms
Straight into your arms
Straight into your arms
You keep me on track
I cant sleep
Till you come back home to me
Into my arms baby
So lets make the best of what we have
Time is precious
It wont last
I see you and I get back
I been gone since yesterday
And I go straight
Straight into your arms
But it only takes one day
And I run straight
Straight into your arms
Straight into your arms
Straight into your arms
Straight into your arms
And I been waiting and waiting
My heart is calling
Its calling
I been gone since yesterday
And I go straight
Straight into your arms
But it only takes one day

And I run straight
Straight into your arms
Straight into your arms
I been gone since yesterday
And I go straight
Straight into your arms
But it only takes one day
And I run straight
Straight into your arms
Straight into your arms
Straight into your arms
Straight into your arms
