Touch me now Just let me love you (let me, love, let me love you)
Just let me love you (let me, love, let me love you)
??? ?? ????? ??? ? ? ??? ???
Just let me love you (let me, love, let me love you) Let me love, let me love you
Let me love, let me love you [English translation:] All this is no coincidence
Just, just I could feel that
The whole world is different than yesterday
Just, just with your joy
When you called me, I become your flower
As if we were waiting, we bloom until we ache
Maybe it's the providence of the universe
It just had to be that, you know I know
You are me, and I am you As much as my heart flutters, I'm worried
The destiny is jealous of us, just like you I'm so scared
When you see me
When you touch me
The universe has moved for us
There wasn't even a little miss
Our happiness was meant to be
Cause you love me and I love you You are my blue mold, saving me
My angel, my world
I'm your calico cat, here to see you
Love me now
Touch me now Just let me love you (let me, love, let me love you)
Just let me love you (let me, love, let me love you)
Since the creation of the universe
Everything was destined
Just let me love you (let me, love, let me love you) Let me love, let me love you
Let me love, let me love you
