

# Make It Right

J Mascis

I don't know when (?)  
I don't know how we know  
All I know is I feel it  
I can't make it alone  
I can't face on my own  
I need more than to be here  
Make it right  
Make it right  
Make it right  
Silence held me the way  
Now I'm lost and I'm reelin'  
I know more than I should  
Never did need no clue  
All I know is I feel it  
Make things right  
Make things right tonight  
Make it right
