

# As I Slither (Live at Summerbreeze)

## Kataklysm

I can't believe it came to this, I live my life with no regrets  
I rise. Every single time you lie  
Stripped down, from all my dignity, you took it all from me  
To me... I'll play that game of hate I slither down your spine. Slither!  
As I slither. I slither down your spine. Slither!  
I slither down your spine. Slither!  
I'll take it all away  
I'll take all away... I'll take your life away  
I can't believe it come to this, I live my life with no regrets  
Stripped down, from all my dignity, you took it all from me  
To me... I play that game of hate  
I rise. Every single time you lie  
I slither down your spine. Slither!  
As I slither. I slither down your spine. Slither! Don't try to comprehend me  
I slither down your spine. Slither!  
I'll take all away... I'll take your mind away...  
Don't try to criticize me  
Watch me as I slither. As I slither.  
Around your neck
