

# This Is My Song!

## Carbon Leaf

My name is Luck, this is my song  
I happened by when you were gone. Oh well...  
I apologize that I could not stay  
But I hope good things swing your way  
I know they will. here's your horseshoe  
So best of luck to you From the stable running brave  
From the cradle to the grave  
This is my day, this is my song!  
I am alive... what can go wrong?  
If we're on our way-oh, ok let me know  
If we're on our way-oh, ok then, let's go  
My name is Hope. Luck just ran out  
He'd said he would return, without a doubt  
(ah, but don't you believe him!)  
Oh, I happen to have a message from Love  
She told me she knows what you've been  
dreaming of  
My name is Hope, this is my song. When things go wrong From the stable running brave  
From the cradle to the grave  
This is my day, this is my song  
I am alive... what can go wrong?  
If we're on our way-oh, ok let me know  
If we're on our way-oh, ok then, let's go Through the windswept countryside  
Across the divide  
From the stable running brave  
From the cradle to the grave  
This is my day, this is my song  
I am alive... what can go wrong?  
If we're on our way-oh, ok let me know  
If we're on our way-oh, ok then, let's go
