

# Wild

## John Legend & Gary Clark Jr.

I just bought a new car  
One where the top goes down  
So we can see the stars I wanna take you so far  
Out past the Saturn rings  
And into my heart I wanna drive you  
Wild, wild, wild  
I wanna love you  
For miles and miles  
We can go slow  
We don't need to rush  
I'll take the wheel, make you feel every touch  
I wanna drive you  
Wild, wild, wild  
Lay on the passenger's side  
Tell me how fast you want?  
We'll get there tonight  
Oh, oh, oh, fire  
You set me on fire  
I swear you're the only one  
I'd take on this ride I wanna drive you  
Wild, wild, wild  
I wanna love you  
For miles and miles  
We can go slow  
We don't need to rush  
I'll take the wheel, make you feel every touch  
I wanna drive you  
Wild, wild, wild  
Yeah  
Wanna love you, wanna touch you, wanna drive you (Wild, wild, wild)  
Oh, wanna love you, wanna touch you I wanna drive you  
Wild, wild, wild  
And I wanna love you  
For miles and miles  
We can go slow  
We don't need to rush  
I'll take the wheel, make you feel every touch  
I wanna drive you  
Wild, wild, wild Yeah, I wanna drive you  
Wild, wild, wild
