

Angie

Cobra Starship

Angie I know you
I said you know it's true
Please don't ask me to believe
Baby I got you
Cause I always knew
You were just having fun, having fun You got it all
And I just really gotta know
What more can I say?
I just wanted to believe
that there was room for me (room for me) Oh, oh, oh, no
You just wanted to play
Oh oh oh no-oh
I give you all I got
Angie can't we just find a way?
Say no more say no more
Angie please don't tell me no
And I ain't mad
Cause you know I understand
You know I understand
Angie, Angie Angie I know you
You know it's true
Please don't ask me to believe
Baby I got you
Cause I always knew
You were just having fun, having fun So here's the thing
Yeah you know that I'm a man
Who can understand
The way it's gotta be
If you need room to breathe (room to breathe)
Oh, oh, oh, no,
you still ask me to wait
Oh, oh, oh, no,
but I can't wait forever
Angie, can we make it today? Say no more say no more
Angie please don't tell me no
And I ain't mad
Cause you know I understand
You know I understand
Angie, Angie Angie I know you
You know it's true
Please don't ask me to believe
Baby I got you

Cause I always knew
You were just having fun, having fun Oh, oh, oh, no
You still ask me to wait
But I can't wait forever
Angie can we make it today? Say no more, say no more
Angie please don't tell me no
And I ain't mad
Cause you know I understand
You know I understand
You're just having fun, having fun Say no more, say no more
Angie please don't tell me no
And I ain't mad
But you know I understand
You know I understand
Angie, Angie
Angie, Angie Angie can't we just find a way? Say no more, say no more
Angie please don't say no
Say no more, say no more
Angie please don't say no
You were having fun Angie I know you
Yeah you know it's true
Please don't ask me to believe
Baby I got you
Cause I always knew
You were just having fun, having fun
